

MD. SABBIR AHMMED

ELECTRICAL & ELECTRONIC ENGINEERING STUDENT

Undergraduate EEE student at Jamalpur Science and Technology University (JSTU), Bangladesh. Driven by hands-on prototyping in electrical circuits, digital logic design, microcontroller robotics, and simulation analysis. Consistently achieved GPA 5.00 in SSC & HSC.

CONTACT

Phone: 01730481378

Email: mdshabbirahmed169@gmail.com

Location: Jamalpur, Bangladesh

LinkedIn: md-shabbir-ahmed-378640432

Facebook: sabbir.ahmed.357605

GitHub: mdshabbirahmed169

SKILLS

- Circuit Analysis & Design
- Digital Logic Design (74xx)
- Microcontroller Prototyping
- Arduino Uno (C / C++)
- Circuit Simulation (Proteus)
- Tinkercad & PSpice
- Python & C Programming
- Problem Solving & Logic

LANGUAGES

- Bengali – Native
- English – Working Proficient

HOBBIES

- Robotics Prototyping
- Circuit Simulation
- Physics & Math Tutoring
- Engineering Books

EXPERIENCE

Private Tutor (Physics, Higher Mathematics & ICT)

Self-Employed | Bogura & Jamalpur | 2022 – Present

- Mentored college students in Newton's laws, circuit fundamentals, and calculus.
- Guided students to achieve top distinction (GPA 5.00) in SSC/HSC board exams.

Undergraduate Engineering Student & Lab Researcher

Jamalpur Science and Technology University (JSTU) | Oct 2024 – Present

- Conducted experimental verifications of circuit theory, diode rectifiers, and logic ICs.
- Authored engineering lab reports documenting schematics and error analysis.

Hardware & Robotics Sub-Team Member

EEE Project Study Group, JSTU | 2024 – Present

- Co-designed microcontroller firmware and pinout allocations for robotics prototypes.

FEATURED PROJECTS

Robotic Exoskeleton Control System Simulation

- Simulation concept integrating PWM motor drivers and joint actuation.

Line Following Robot using Arduino Uno

- Autonomous robot with TCRT5000 IR sensor array and differential PWM drive.

Bluetooth Control Car using Arduino Uno

- Wireless RC vehicle controlled over Bluetooth UART with smartphone app.

4-Bit Memory Using 74LS74 D Flip-Flop IC

- Sequential digital logic circuit implementing 4-bit PIPO register.

Automatic Water Level Controller Project

- Implemented a water level control system using a microcontroller to ensure day safety.

EDUCATION

B.Sc. (Honours) in Electrical & Electronic Engineering

Jamalpur Science and Technology University (JSTU)

Oct 2024 – Present (Running)

Higher Secondary Certificate (HSC) - Science

Sherpur Govt. College, Bogura | GPA 5.00 / 5.00

Passing Year: 2022

Secondary School Certificate (SSC) - Science

Nogor Shah Mozammel Haque High School | Golden GPA 5.00

Passing Year: 2020
